

NCIC CLINICAL TRIALS GROUP

RADIATION FORUM

MEETING AGENDA

DELTA CHELSEA HOTEL, TORONTO, ON

ROOM: SEYMOUR

FRIDAY, APRIL 26, 2013 – 8:00 AM – 12:00 PM

CHAIR: A. NICHOL ON BEHALF OF M. MCKENZIE

CME Credits:

Credits for Specialists: This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada, and approved by Queen's University.

Learning Objectives:

- To understand and address, through clinical and translational research, the disease burden associated with solid tumours and haematological malignancies treated with radiotherapy in Canada.
- To review recent developments in the understanding of molecular biology of cancers treated with radiotherapy.
- To update, review, and discuss recent results of clinical studies involving radiotherapy conducted by the NCIC Clinical Trials Group or national/international collaborators.
- To provide a learning environment supportive to new investigators.
- To understand and apply new clinical trial methodologies in the field of clinical research.

8:00 am	Welcome	A. Nichol
	<u>NCIC CTG led trials: Ongoing</u>	
8:05 am	Dexamethasone vs. placebo in the prophylaxis of radiation-induced pain flare following palliative radiotherapy for bone met. NCIC CTG SC.23	R. Wong
	<u>NCIC CTG Intergroup studies: Ongoing</u>	
8:10 am	Radiation doses and fractionation schedules for DCIS of the breast. NCIC CTG MA.33	I. Olivotto
	<u>Updates in NCIC CTG approved studies:</u>	
8:15 am	HDR brachytherapy in intermediate risk CaP. NCIC CTG PR.15	E. Vigneault
8:30 am	Preoperative Chemoradiotherapy vs. Preoperative Chemotherapy for Resectable Gastric Cancer. NCIC CTG GA.1	J. Ringash / R. Wong

- 8:45 am **Radiation vs. Radiation Plus Chemotherapy with Palliative Intent in Locally Advanced or Locally Recurrent Rectal Cancer. NCIC CTG CO.22** W. Parulekar for J. Biagi / C.Falkson
- 8:50 am **SBRT vs. CRT for complex spinal metastasis. NCIC CTG SC.24** A. Sahgal / R. Wong
- Updates on previous discussed proposals*
- 9:05 am **Randomized study of single 8 Gy versus BSC for symptomatic primary or metastatic liver cancer** L. Dawson
- 9:20 am **HDRBT in operable rectal cancer** T. Vuong
- 9:35 am **Coffee break**
- New Study proposals*
- 9:50 am **Stereotactic RT for oligo-progression of metastatic kidney cancer patients on 1st line targeted therapy: Phase II** P. Cheung
- 10:05 am **Comprehensive RT for oligometastatic NSCLC: randomized Phase II** P. Cheung
- 10:20 am **Hypofractionated schedules of conventional RT for 'complicated' bone metastases** K. Dennis
- 10:35 am **Phase III regional radiotherapy in early breast cancer treated by breast-conserving surgery and sentinel lymph node biopsy** I. Kong
- 10:50 am **Accelerated Radiotherapy alone in Favorable HPV(+) SCCHN** B. O'Sullivan / J. Waldron
- 11:05 am **Induction Chemotherapy followed by Accelerated Radiotherapy Alone in Unfavorable HPV(+) SCCHN** B. O'Sullivan / E. Winqvist
- 11:20 am **Dosimetric planning feasibility for HPV (-) locally advanced patients who are not candidates for chemotherapy** L. Eapen
- 11:35 am **A randomized phase II study for patients with T4 rectosigmoid cancer** T. Vuong
- 12:00 pm **Meeting adjourned**
